Veluxfonden and to whom it may concern

Dr. Niels Christian Hvidt has built a project in order to formulate "a theology of miracle". I think the theme is very interesting - and challenging but not at all an easy and simple one. I do hope that you could make his five-year-project economically possible. Dr. Hvidt is a talented person and would for sure be able to fulfill the task he's taken.

In the beginning of this year a new project has been started between our University and the University of Turku "Gendered Practices in Medieval Mysticism, 1200-1500", funded by the Academy of Finland (<http://users.utu.fi/merhei/engendered.html>). I think that professional collaboration would be very fruitful: Dr. Hvidt's project might gain from contacts with the researchers of this project and vice versa contacts with a Gregorian Doctor benefit the other project by giving new aspects and possibilities.

So, I very willingly endorse Dr. Hvidt's application and recommend him.
